

3.5ch RC metal helicopter with camera REH54817C

Features

rc helicopter bag

Turn right, Left flying

Right flying with gyro, with camera

BUILT-IN
DIGITAL VIDEO CAMERA

AIR PHOTOGRAPH

The helicopter possesses intelligent identification circuit board, can load high pixel camera, can use as soon as install, very convenient. The camera can choose to be opened or closed according to operator, the angle also can be adjusted, and changed into AVI format directly after recorded.

COAXIAL SCULLS

The high efficiency of coaxial sculls structure and the strong resistance of wind of metal balancing bar, offer sufficient power of flying, and it is smooth and easy to control for new players.

GYRO

The gyroscope can correct the helicopter much of the deflection when flying, also have strong effect on slightly and continually deflection.

3D DIRECTIONAL FLY

The high efficiency of coaxial sculls structure and the strong resistance of wind of metal balancing bar and double motor system, offer sufficient power of flying.

APO PROTECT SYSTEM

APO protect system can protect the helicopter's coming into obstruction or stop suddenly when flying. It can interrupt the power automatically, it will be more safe.

USB
CHARGER

CHARGING SYSTEM

The helicopter's mature USB charge technology makes you more convenient, it can charge directly through a computer.

PACKING & PARTS

817C、 Remote control、 USB charger、 USB line、 Main Propeller, Tail blade.

Specification

Helicopter battery: 3.7V 300mAh LI-battery(included)

Transmitter battery:6*1.5V AA battery (not included)

Charger mode: USB charger

Charging time:60 minutes

flying time:about 7 minutes

Remote control distance:about 10 meters

Suitable for ages: 14 years+

What's Included

1 × rc helicopter

1 × transmitter

1 × USB line

1 × English instruction

1 × A/B blade
