

1/10 Scale Electric Powered RC Off Road Monster Truck TPET-1001PRO

Quick Details

Style: Radio Control Toy

Type: Electric RC Car

Power: Battery

Material: Plastic

Plastic Type: ABS

Place of Origin: Guangdong China shenzhen

Brand Name: 1/10 Scale Electric Powered RC Off Road Monster Truck

Model Number: TPET-1001PRO

Feature

- 1, 4WD drive system.
- 2, Extra large radio tray provides stable rest for servo and radio system.
- 3, High precision motor RC 540 and ESC 03018.
- 4, Oil filled aluminum capped shocks.
- 5, Oil serviceable gears built-in high quality bulkhead.
- 6, Skilled front steering system features quick turning response to whole vehicle.
- 7, Compact battery box is waterproof against dust.
- 8, 7.2v 1800mAh Ni-MH battery.
- 9, Off road knobby tires with spoke wheel rims.
- 10, High quality car body.

2.4GHz is the standard of new generation radio system because it has a lot of advantages. Operating at 2.4 GHz puts the radio control out of the frequency range of any 'noise' generated by the other electronic components on your RC car or helicopter - such as the brushless motor. Electronic speed controller, servos and any metal to metal noise - eliminating interference and glitching that can affect traditional frequency system. It also has faster response speed and more accurate controllability.
