The introduction of remote

A black and white photograph of a radio-controlled car transmitter. The device has a symmetrical, ergonomic design with two large joysticks on the left and right sides. The left joystick is labeled 'Speed control' and the right joystick is labeled 'Direction control'. Above the left joystick is a small switch labeled 'Channel switching'. Above the right joystick is a small knob labeled 'Fine-tuning'. At the top center is a red light labeled 'Power light'. Below the joysticks is a small switch labeled 'Switch'. The transmitter has a 'FIRE' button on the left and an 'ACCEL' button on the right. The text 'Infrared Remote Control' is visible on the front panel.

- Channel switching
- Power light
- Speed control
- Direction control
- Fine-tuning
- Switch
