Internal Structure

Specification

Transmitter battery: 8*AA battery
Product Battery: 3.7V 240mah Li-battery
Charging method: 1 by Charger 2 by USB Cable
Charging time: 2 hours
Playing time: 4-5 minutes
Control distance: 800 Meters
Suitable Age: 14+

Configuration

5-in-one board integrating receiver; 3.7V 240mah Li-battery*2pcs; 1410-11000 brushless motor; Tail Motor; 12A brushless ESC; 2g servo(5lines)*3.
