

Beetle Ladybird 2.4G 4CH Quadcopter REH66V929

Quick Details

Style: Radio Control Toy

Type: RC Quadcopter

Power: Battery

Material: Plastic

Plastic Type: ABS

Place of Origin: Guangdong China shenzhen

Brand Name: Beetle Ladybird 2.4G 4CH Quadcopter

Model Number: REH66V929

Features

High stability during hover and flight

Agile in flight and very responsive to pilot's command

With LED light- charming at night

The Beetle can fly outdoor in wind weather (outdoor wind grade 3-4).

Comes with high quality- ultra-thin and ultra-lightweight plastic canopy but it is strong enough to resist the impact of crashing

Highly responsive propellers- able to give the Beetle the "punch" when you need it

The transmitter is fitted with an LCD display for easier and more precise flying experience.

It can fly up- down- forward- backward- bank left- bank right- and yaw left and right

While it is very stable in hovering- it can also perform stunning 3D moves!

It is suitable for both indoor and outdoor flying (the wind grade should be no more than 4).
