GERMAN TIGER I

A detailed model of a Leopard 2 tank, shown from a side profile. The tank is grey and features a long main gun barrel, a turret with a commander's cupola, and a complex track system with multiple road wheels. The model is set against a white background with a reflection below it.

A collection of items for a Tiger I tank model. The items include: a grey plastic model of a Tiger I tank with a black figure on top; a black remote control with two joysticks and a silver antenna; a yellow cylindrical battery; a black motor; a black receiver; a yellow rectangular component; a red screw; a black frame with a motor and gears; a white card with the number '3818 3818' and a target symbol; a manual with a picture of a Tiger I tank; and a white card with a target symbol and the text 'TIGER I' and '3818 3818'.
