

## Product parameters

Accessories:1-Drone□1-Controller□1-Manual

1-USB charging cord□4-Blades

Remote control battery:4/1.5V AA

Battery materials:Li-po battery/3.7V / 700MAH

Product color□green- black

Color box size□45\*11\*35.5

Product size□40\*40\*10

Charging information□USB charger

Card reader□Yes

Frequency:2.4G+5.8G

Charging time: 60 MIN

Camera pixels: 0.3 M, 2 M

Memory card: 4 g

Min flight (remote control) time (English) : > 5 min

Flight (remote control) from m (English) : 150 m

# REH53 1331

SKY HAWK RC drone with 5.8GHz FPV+2.0MP

- Headless mode
- A key return
- Set high mode
- HD aerial

## The fuselage size

Referring mechanics lightweight design

## Headless mode

More relaxed, more free full flight.

Change direction at any time and place, the flexible flight.

## Fixed high mode

In altitude hold mode (high) mode the motherboard will automatically control the throttle, so as to maintain the same.

## One key to return

According to internal stored in the controller, the recovery in the opposite direction in accordance with the flight path.

**0.3MP**

5.8GHz FPV 0.3MP camera  
Give you a different visual enjoyment

## Wing Toughness

The plane can be stable even in strong winds

## Remote controller

Remote control distance of 150 m

- Comfortable
- Sensitive

# configuration

- 1 \*SKY HAWK
- 4 \*propeller
- 1 \*remote controller
- 1\* card reader
- 1 \*USB charger
