Kamera ile 3.5ch RC metal helikopter REH54817C

Özellikler
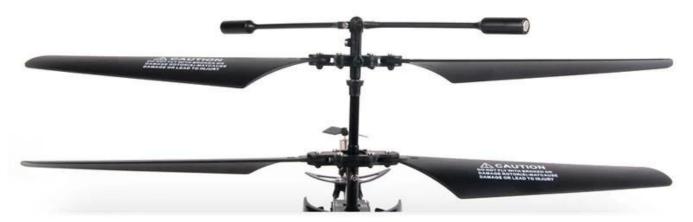

rc helikopter çantası
Sağ, Sol uçan açın
Sağ kamera ile, gyro ile fiying

BUILT-IN
DIGITAL VIDEO CAMERA

BUILT-IN
DIGITAL VIDEO CAMERA **AIR PHOTOGRAPH**

The helicopter possesss intelligent identification circuit board, can load high pixel camera, can use as soon as install, very convenient. The camera can choose to be opened or closed ocording to operater, the angle also can be adjusted, and changed into AVI format directly after recorded.

COAXIAL SCULLS

The hight efficiency of coaxial sculls structure and the strong resistance of wind of metal balancing bar, offer sufficient power of flying, and it is smooth and easy to control for new players.

GYRO
Built-in GYRO

GYRO

The gyroscope can correct the helicopter much of the deflection when flying, also have strong effect on slightly and continually deflection.

3D DIRECTIONAL FLY

The hight efficiency of coaxial sculls structure and the strong resistance of wind of metal balancing bar and double motor system, offer sufficient power of flying.

APO PROTECT SYSTEM

APO protect system can protect the helicopter's coming into obstruction or stop studently when flying. It can interrupt the power automatically, it will be more safe.

USB CHARGER CHARGING SYSTEM

The helicopter's mature USB charge technology makes you more convenient, it can change directly through a computer.

PACKING & PARTS

817C、Remote control、USB charger、USB line、Main Propeller，Tail blade.

Şartname

Helikopter pil: 3.7V 300mAh LI-pil (dahil)
Verici pil: 6 * 1.5V AA pil (dahil değildir)
Şarj modu: USB şarj cihazı
Şarj süresi: 60 dakika
zaman uçan: yaklaşık 7 dakika
Uzaktan kumanda mesafe: yaklaşık 10 metre
+ 14 yaş: yaş için uygundur

Neler dahil
1 × rc helikopter
1 × verici
1 × USB hattı
1 × İngilizce eğitimi
1 × A / B bıçak
